

Say Friends,

Sorry it has been awhile, but there have not been many noteworthy new parts to share until recently. However we believe these new ones are pretty significant. We are really proud of the 8054 beer wing nut and think it will become the new industry standard. We're also introducing the 9223 - finally a 304 stainless splicer worthy of the wine industry.

Many of you are receiving this for the first time as we have recently updated our email distribution list. If this newsletter is unwanted, please just unsubscribe. We have found newsletters and website updates are better than making new catalogs.

Thanks, Mark and staff

Book recommendation: [A History of the World in 100 Objects](#) by Neil MacGregor. Looks at 100 pieces from the British Museum and explains why they are significant – easy and fascinating read.

Funny T-shirt: "I did not escape, I have a day pass!"

Quote: "The more talk, the less truth; the wise measure their words." - Solomon

New Products for August 2015
