

Say Friends,

Thanks for the business in 2015. We hope 2016 will be even better for all of us. Our intent is to be the best supplier in the beverage industry. If there is anything we can do to improve our service or line of products, please tell us. We could send out a survey but we believe you will let us know directly

Not many new fittings this time, but the beer gas nipple is finally in stock - thanks for your patience.

We've just completed our new catalog. A digital version can be downloaded by clicking [here](#); printed copies are available upon request.

Thanks, Mark and staff
