

Hello Friends,

Just a reminder that BrauBeviale begins November 8th and we will be at our usual place - Hall 9, Stand 508. Please stop by, drink our beer, and stay too long – that’s what friends do. This is a good year to go since Brau takes a break next year to let Munich have their fun.

We have found some of the last 1099-I, or 14100083, side jaw pincers - not much love for their replacements. The price is up a little from last year. When they are gone....

On a sad note – many of you knew Ty Taylor. He came to Fittings to oversee our Cold Plate Department many years ago. Ty ended his career here as Plant Manager, thinking retirement sounded better. He spent his last few years driving his RV over much of the US, fishing, taking his wife dancing, and spending time with his grandkids. After a brief battle with cancer, he passed away on October 6th - a great and unexpected loss.

Thanks, Mark & staff

Book recommendation: All the Light We Cannot See by Anthony Doerr
Simply brilliant!

Quote (in honor of our friend Ty): “Good planning and hard work lead to prosperity” – Solomon
